Washington Homeopathic Products converted to solar power in 2014, becoming the first homeopathic manufacturing company in the world to be solar-powered!

Homeopathy

In the late 1700s, the German medical doctor Samuel Hahnemann established homeopathy as a treatment of the root causes of disease, not merely treatment of the symptoms of disease. Homeopathic medicine is an approach to using ingredients (mainly botanical and mineral substances) that have been manufactured in such a way that the active ingredient(s) are reduced to a "micro-dose." This ensures that the product can be safely used by people of all ages, without side effects. Homeopathy has popularity with both consumers and practitioners worldwide, and because of its safety profile, is an excellent approach to self-care for a variety of ailments.

Washington Homeopathic Products

For over 140 years, Washington Homeopathic Products has been a trusted name in natural pharmacy. We believe that often the simplest way of doing something makes the most sense and ensures the healthiest outcome. Most of the medicines we manufacture have been made the same way for over a hundred years. They are safe, effective and easy to administer. Washington Homeopathic Products carries a wide array of homeopathic products from single remedies and combinations, to tinctures and topical sprays. At Washington Homeopathic Products, we're committed to the science and art of natural medicine. We welcome you to take part in this long tradition and try homeopathy for your natural healing needs!

Be gone™ LIL' BRUISES & BUMPS

Does your little one like to run, climb, jump and skip? All kids do, but they can end up with little bruises and bumps too.

While a mama's kiss brings comfort, a little Arnica ointment will do wonders to take away bruising and make those boo boos better faster! Arnica is well known for its healing properties for injuries involving bumps, bruises and sore muscles. Rub a small amount on your little one and they'll be back out there playing in no time.* Do not use on open wounds! Instead try out Be gone™ Lil' Cuts & Scrapes for injuries involving minor scrapes and scratches.

Indications: Reduces swelling*

Ingredients: HPUS: 11% Arnica 1x in a base of 50/50% Lanolin/Petrolatum.**

*The uses for this product are based on traditional homeopathic practice. They have not been reviewed by the Food & Drug Administration.

**The petrolatum used in our base is pharmaceutical (USP) grade, which means it goes through a purification process to remove impurities. Petrolatum is traditionally used in homeopathic

topical applications because it creates a seal allowing the active homeopathic ingredients to be absorbed by the skin.
