Cindy Crawford doesn't leave home without her Homeopathic Kit.

Berkeley Springs, WV, November 29, 2007

As fuel prices soar, baby boomers age and health care coverage is heavily debated - what better time for the American public to learn more about Homeopathy, an effective, affordable medical system?

On October 30 Cindy Crawford told Oprah viewers that she cannot live without her 50-remedy kit from Washington Homeopathic Products. "I'm a big fan of homeopathy. If I have the kids, for sure I always take this with me - bee stings, mosquito bites, bruises" she says. And she never forgets her homeopathic bible, Homeopathic Medicine at Home by Maesimund B. Panos.

What should this message tell consumers nationwide? There are options. Such as Homeopathy, the second most widely used medicinal system worldwide. Tens of millions of people around the world use Homeopathy and it has been used safely and effectively for over 200 years. Unlike conventional allopathic medicines, which only suppress symptoms rather than curing -- sometimes at the expense of dangerous side-effects - homeopathy supports the natural curative mechanisms within the body.

"The low cost of the medications and the rarity of adverse reactions make it preferable, in most cases, to modern drugs. Furthermore, because the medicines are inexpensive, safe, and easy to use, individuals can learn to handle many common illnesses for which people regularly seek medical help. The resulting savings in costs and the increase in personal independence are what health care in this country needs now," by William Shevin MD.

The Bureau of Labor Statistics projects that in 2008 over 40% of the labor force will be 45 and older. As the baby boomers age and move into retirement the population of people on fixed income will increase. Living on a fixed income can be challenging especially with rising health care cost and fuel prices ever increasing. People across income brackets are being forced to make choices and sacrifices in response to escalating cost of living expenses.

Homeopathy cannot solve all economic woes, but it can ease health care concerns. Imagine saving the money spent on doctors visits for colds, sinus problems, flu, allergies, and fevers. Homeopathy offers safe alternative medicine to treat acute illnesses affordably. The 30c 50-remedy kit by Washington Homeopathic Products includes medicines to address common ailments such as colds and flu, motion sickness, indigestion, diarrhea, and headaches. For additional information on the WHP 30c 50-remedy kit, like the one that Cindy Crawford cannot live without, contact Misty Householder or visit www.homeopathyworks.com. Cindy Crawford is not using homeopathy because of its affordability. She is using homeopathy because it works.

Washington Homeopathic Products (WHP) was established in 1873 serving as the homeopathic pharmacy for the Washington DC community including the National Homeopathic Hospital. WHP is the oldest full line homeopathic manufacturer in the nation. WHP manufactures homeopathic medicine in accordance with the FDA's GMP policies and the Homeopathic Pharmacopoeia of the United States (HPUS).

To learn more about Homeopathy visit the National Center for Homeopathy (NCH) website www.nationalcenterforhomeopathy.org. The NCH has been invested in educating the public about homeopathy for over 85 years. The NCH website is offers numerous educational materials including articles, resources and media outreach as well as Homeopathic education such as seminars, study groups and an annual conference.
